Dear Parents and Guardians,

Exciting Update on Tickets!

We are thrilled to announce that our online ticketing system is now live! A huge thank you to everyone who has participated so far—over 200 tickets were allocated within the first hour! If you haven't had a chance yet, don't worry—there are still plenty of tickets available.

Here's what you need to know:

How to Secure Your Tickets: use Your Child's School Email and Password: To ensure fairness, you'll need your child's school email and password to book tickets. This ensures tickets are reserved only for our school community and keeps the process equitable for all families – you are guaranteed to get a tickets this way. Once everyone has had the opportunity to order tickets we will turn off the login requirement.

Fair Access for All Families: we've planned ticket availability to allow every family the chance to secure at least two tickets for one of the shows. After everyone has had an opportunity, we'll open bookings for additional tickets if desired.

Top Tip: Relaxed Performances - The relaxed performances are for families with babies and toddlers, though everyone is welcome. These shows tend to have more availability, so keep them in mind when booking.

Important Booking Notes. To ensure a smooth experience, please follow these tips:

Log Out of All Other Google Accounts: If you're signed into multiple accounts, the system might not recognise your child's school credentials.

Use the Link Provided: Always access the ticketing system through the official link shared and log in using your child's school email and password.

If you have previously changed your child's password, or simply forgotten it, please contact the school office where it can be reset. (We cannot access passwords but can reset them.)
