Dear Parents and Carers,

## SPECIAL NEWSLETTER CAREERS WEEK

### DREAM BIG START SMALL

Next week, we are excited to be celebrating Careers Week across the school. Our theme is **'Dream Big, Start Small'**. Throughout the week, children will explore a range of careers, learn about the skills needed for different jobs, and begin to think about their own aspirations for the future.

- EYFS will focus on people who help us
- Years 1 and 2 will explore careers in our local community
- Year 3 will discover careers throughout the curriculum
- Year 4 will explore what important skills different jobs need
- Year 5 will investigate different future pathways including apprenticeships, college and university
- Year 6 will take part in a 'Future Me' project exploring future pathways, identifying their own skills and considering their next steps

We encourage parents and carers to continue these conversations at home by asking children about the visitors they have met during the week, their learning about careers, and what their own hopes and dreams are for the future. We look forward to inspiring our pupils to recognise the many exciting opportunities available to them and the small steps they can take today towards achieving their ambitions!

**FRIDAY – Children are invited to come to school dressed as their career aspiration!**

**Year 6 parents/carers and family members are invited to attend a special showcase event on Friday 19<sup>th</sup> June between 2:50-3:20pm, where Year 6 will share their visions for their lives at 25.**

**Please see page 2**
